

THAT DAILY INCOME

# Affiliate Starter Guide

Everything you need to get your first sale

---

Welcome to the That Daily Income Affiliate Programme. This guide covers everything you need to get started — your tracking link, how commissions work, what to post, and a 30-day content calendar to follow from day one.

**Your one goal:** Drive people to [thatdailyincome.com](https://thatdailyincome.com) using your unique tracking link. The funnel does the selling. You focus on the traffic.

## 01 — Your Tracking Link

---

Once approved, you will receive a unique affiliate tracking link. It looks like this:

```
thatdailyincome.com?sa=YOURCODE
```

### Critical rules about your link:

**Always send people to thatdailyincome.com** — never directly to /ready. The main page captures the visitor's email first, then moves them to the sales page automatically. If you skip this step, your commission tracking may not work correctly.

### Where to place your link:

TikTok bio — your primary placement. Every video should end with "link in my bio."

Instagram bio — cross-post your TikTok content and use the same link.

Facebook profile and groups — share naturally in relevant communities.

WhatsApp and Telegram groups — effective for direct, personal audiences.

## 02 — Your Commissions

---

You earn 25% on every confirmed sale generated through your link. Your link covers all four price points automatically — you earn on whichever tier your referral purchases.

Tier	Sale Price	You Earn
LaunchPad	\$100	<b>\$25</b>
Daily Pay Blueprint	\$300	<b>\$75</b>
Digital Mastery	\$600	<b>\$150</b>
Legacy Builders	\$900	<b>\$225</b>

### How tracking works:

systeme.io uses cookie-based tracking. When someone clicks your link, a cookie is stored in their browser. If they return and purchase within the cookie window — even days later — you still get the commission. You do not need to chase leads or follow up manually.

### Getting paid:

Commissions are processed automatically through systeme.io. Make sure your payment details are correctly set up in your systeme.io account. Commissions are paid on confirmed sales only — reversed or charged-back transactions will have their commission voided.

## 03 — What to Post

---

You do not need a large following to generate sales. You need consistency. Post 3–4 times per week and direct every piece of content to the link in your bio.

### The four content angles that convert:

- 1. Income potential** — Show the commission structure. What does \$75, \$150, \$225 per sale look like?
- 2. How it works** — Explain the done-for-you model. No product, no stock, just a link.
- 3. Lifestyle** — Show freedom, flexibility, working from anywhere.
- 4. Objection busting** — Answer doubts: "Is this real?", "Does this work from my country?", "Do I need experience?"

### Sample script — short and effective:

"There is a digital business model that lets you earn \$25 to \$225 per sale promoting a proven offer — with no product of your own. No cold calling. No stock. Just content and a link. If you want to see how it works, the link is in my bio."

### Platform tips:

**TikTok:** 30–60 seconds. Hook in the first 2 seconds. End with "link in my bio." Post consistently — 3-4x per week minimum.

**Instagram Reels:** Repost your TikTok content. Same link in bio. Doubles your reach for zero extra effort.

**Facebook Groups:** Join groups around "work from home", "side hustles", "make money online". Engage genuinely first — do not just drop your link.

**Important:** Always disclose your affiliate relationship in your content. A simple "affiliate link" or "I earn a commission on sales" in your caption or video is required under FTC guidelines when targeting US audiences.

### One final note

This works — but only if you show up consistently. The affiliates who succeed are the ones who post regularly, engage genuinely, and keep going even when it feels slow. Results build over time. Trust the process, follow this guide, and the sales will follow.

Good luck. We are rooting for you.
